

Aussie Crawl[®]

Scaevola

Scaevola have been popularised all around the world due to their quick flowering ability, unusual fan form and versatility as a ground cover or containerised plant. Aussie Crawl is a beautiful, free-flowering Scaevola bred by NuFlora International.

It's a hardy, ground covering plant with strong, mat forming foliage that performs well as a weed suppressor. Aussie Crawl produces masses of blue-mauve fan-shaped flowers for most of the year, bringing a fantastic colour display to gardens across Australia.

It's semi-cascading habit makes it an excellent choice for containers and hanging basket, and for trailing over banks or walls. It also performs well in gardens, rockeries and mass plantings or as a feature plant.

Notes from the Ramm Botanicals R&D Team:

- Survived exceptionally well in the tough conditions of the gardens at Ramm
- Very low growing, great option for ground cover
- Ideal for weed suppression
- Adds good flower colour, retains neat foliage and overall presentation.

Key Information

Height	30cm
Width	1.5m
Tray size	162 plugs per tray
Price per plug	\$0.98 (+GST)
Label supplier	Norwood
Label bundle size	125
Label code	51-3951
