

BUSHEL *and* BERRY®

Peach Sorbet®

Jelly Bean®

Pink Icing™

VACCINIUM BUSHEL & BERRY

Peach Sorbet / H: 60cm W: 60cm

Peach Sorbet is a compact plant offering foliage with tones of pink and orange, turning a rich eggplant purple in winter. Expect a generous summer crop of tropical flavored, sweet berries.

Jelly Bean / H: 45cm W: 45cm

A unique plant producing large, flavorful berries during summer that taste like sweet, homemade blueberry jam. Unlike other blueberry varieties, Jelly Bean has elongated green leaves that hint tones of yellow and red in cooler climates.

Pink Icing / H: 1.2m W: 1.2m

During spring, Pink Icing displays shades pink, blue and deep green in its foliage. Watch as winter arrives and the leaves turn to a stunning iridescent turquoise blue. This attractive and compact plant bears loose clusters of sweet, robust berries.

HIGHLIGHTS:

- Abundance of large, sweet berries
- Compact, self-pollinating plants
- Easy to grow, easy to love

Species	<i>Vaccinium corymbosum</i>
Common name	Blueberry
Produced from	Tissue Culture
Tray size	N/A
