

NATURE'S WONDERS

LIMONIUM PEREZII BLUE

Limonium Perezii Blue is a distinctive evergreen perennial that produces tall clusters of tiny deep mauve paper flowers in the warmer months of the year. It forms a bush sub-shrub that is very adaptable in the garden, being especially suitable for harsh, coastal locations. The flowers are also wonderful for indoor use and can be dried for long lasting floral arrangements.

Perezii Blue is a fool-proof plant, tough enough to grow in almost every climate. They love coastal locations and are a great choice for the low maintenance garden. The stock produced at Ramm is produced direct from tissue culture, ensuring consistent quality, performance. Seed grown limonium are quite common, but can produce large variations in size.

HIGHLIGHTS:

- Small, mauve paper flowers
- Tough, leathery foliage
- Very tough plant that thrives in most climates, including harsh, coastal conditions
- Drought tolerant
- Produced from high quality tissue culture

Species	<i>Limonium perezii</i>
Common name	Sea lavender
Produced from	Tissue culture
Tray size	105
Label code	51-3737
Height/Width	1m / 50cm
Habit	Bushy sub-shrub
Growing pH	pH 5.5 - 6.5
Finishing Times	In 140mm, 10-12 weeks
Pests & Diseases	No major pests or diseases
Position	Full sun
