## LOMANDRA VERDAY

Lomandra Verday has proven to be one of the strongest Lomandra on the market, withstanding a range of conditions all over Australia from Perth to Darwin and Hobart.

It's a quick growing, drought and frost tolerant variety that is long lived and retains its dark green colour year round. Assisting with weed suppression, erosion control and revegetation, Verday is an excellent choice for a wide range of landscape applications. This includes roadside plantings, playgrounds and parks and formal gardens.

Verday produces pale yellow, perfumed flowers in spring and summer, and is highly tolerant of air pollution, heat from pavements and buildings, and requires little to no maintenance and irrigation.

### HIGHLIGHTS:

- Proven across Australia in a range of landscape applications
- Strong, quick growing, low maintenance
- Waterwise native that thrives in most conditions and tolerates most soil types
- Great for erosion control, weed suppression, soil stabilisation and revegetation.

<b>Species</b>	<i>Lomandra longifolia</i>
<b>Common name</b>	Spiny-headed mat-rush
<b>Produced from</b>	Tissue Culture
<b>Tray size</b>	105
<b>Label code</b>	51-3952
<b>Height/Width</b>	50cm / 1cm
<b>Habit</b>	Semi-upright/weeping
<b>Growing pH</b>	pH 6.0 - 6.5
<b>Finishing Times</b>	In 140mm, 10-12 weeks
<b>Pests &amp; Diseases</b>	No major pests or diseases
<b>Position</b>	Full sun/part shade
